

PATHIK PATEL

Etobicoke, Ontario M9V 4R5 • +1 (437) 557 2870 • pathikpatel0120@gmail.com

Professional Summary

- Detail-oriented **Software Developer** with over **3+ years** of experience in designing, developing, and migrating enterprise applications based on multi-tier architecture.
- Proficient in **Java** and modern **web** technologies, delivering high-quality **software** solutions that meet client requirements.
- Skilled in automating deployments using **AWS** CloudFormation scripts and implementing **CI/CD** pipelines to streamline development processes.
- Experienced in building responsive web applications using **HTML**, **CSS**, **JavaScript**, and frameworks like **AngularJS** and **ReactJS**.
- Strong expertise in **backend** development with **Spring MVC** and **Spring Boot**, enhancing application performance and scalability.
- Adept at database design and development, including complex **SQL queries** and **PL/SQL** procedures for efficient data handling.
- Committed to continuous improvement, applying **Agile** methodologies to foster collaboration and ensure timely project delivery.

Skills

- Programming Languages:** Java / J2EE, Python, SQL, PL/SQL, HTML, JavaScript, TypeScript, CSS, UML, jQuery
- Web Technologies:** JavaScript, JSON, AngularJS, Node.js, React.js, Bootstrap
- Frameworks:** Spring MVC, Spring Boot
- Version Control:** Git, GitHub
- APIs & Services:** REST, SOAP, AJAX
- Development Methodologies:** SDLC, Agile, Scrum, Waterfall
- IDEs & Tools:** IntelliJ IDEA, Eclipse, NetBeans, Docker, Postman, Figma, MS Visio, Jira, Confluence, Erwin, Ant, Maven, JUnit, Mockito
- Databases:** MySQL, SQL Server, Oracle, PostgreSQL, MongoDB, DynamoDB
- Cloud Platforms:** AWS, Microsoft Azure
- Servers:** WebSphere, WebLogic, JBoss, Tomcat
- Operating Systems:** Windows, Linux

Work History

Software Developer, 06/2024 to Current

CGI – Canada

- Developed scalable back-end services using **Java** and **Spring Boot**, ensuring robust architecture for full-stack applications.
- Created responsive front-end interfaces with **ReactJS** and **Angular**, significantly improving user experience and engagement.
- Participated in **Agile** development processes, including daily stand-ups and sprint planning, to ensure timely project delivery.
- Automated testing and deployment pipelines using **Jenkins**, enhancing the **CI/CD** process and reducing time to production.
- Optimized complex **SQL queries** and **PL/SQL** procedures, improving data retrieval times and application performance.
- Integrated **AWS** services such as **EC2**, **S3**, and **Lambda** into applications for increased scalability and reliability.
- Built **RESTful APIs** for seamless data integration with third-party services, ensuring high data availability and security.
- Collaborated with cross-functional teams to gather requirements and translate them into **technical** specifications.
- Conducted code reviews to maintain code quality and ensure adherence to best practices and standards.

Software Developer, 07/2020 to 11/2022

Druva Software – India

- Designed and implemented **software** solutions aligned with client specifications and industry standards.
- Developed **RESTful APIs** using **Spring Boot**, facilitating efficient communication between various services.
- Created responsive web applications utilizing **AngularJS**, **Bootstrap**, and **Node.js**, enhancing front-end functionality.
- Wrote and optimized **SQL queries** and **PL/SQL** procedures to support backend functionality and reporting needs.
- Spearheaded the redesign of the **build** and deployment process, resulting in a 60% reduction in deployment time.
- Implemented security protocols using **OAuth 2.0** and **JWT**, safeguarding user data and enhancing application security.
- Conducted thorough code reviews and testing, ensuring adherence to best **practices** and maintaining high code quality.
- Collaborated with product **management** and stakeholders to understand **business** requirements and translate them into technical solutions.
- Developed documentation for **software** features and processes to improve knowledge sharing within the team.
- Actively participated in team training sessions to stay updated with the latest **technologies** and **methodologies**.

Education

Master of Science: Applied Computing, 04/2024

University of Windsor - Canada

Bachelor of Engineering: Computer Engineering, 06/2022

Gujarat Technological University - India

Certifications

- Microsoft Azure Fundamentals
- Spring: Test-driven development with JUnit
